

**SOUTH CAROLINA INTERMEDIATE
RECOVERY
IMPLEMENTATION PLAN**

This State Recovery Plan will be reviewed and updated every 14 days.

Change #	Date	Program Area

Plan Authorization

This plan provides overall direction for the State of South Carolina’s recovery efforts, and specifies milestones to be accomplished over time. It outlines the goals, operational priorities, and desired end state that enables South Carolina, with FEMA assistance, to deliver the full range of federal, state and private sector programs and services to assist impacted citizens, restore damaged infrastructure, identify mitigation projects and shape the transition to long term recovery. All incident plans directly or indirectly support this recovery plan. Information in this document is used to create additional planning products such as the Incident Action Plan or functional plans.

Purpose

This plan outlines South Carolina’s strategy for the implementation and support of Public Assistance (PA), Individual Assistance (IA), Hazard Mitigation (HM), and Public Information activities in support in of FEMA-4241-DR-SC State recovery operations. This plan is organized around the phases of recovery and National Core Capabilities and identifies objectives and major tasks in order to meet the desired end state. The objectives and tasks identified in this plan will aid the State Disaster Recovery Coordinator (SDRC) in tracking overall progress and long-term recovery performance.

1. **Situation.** The combination of a slow moving upper-level low over the southeastern United States, an area of low pressure at the surface located along a stationary frontal boundary, and a persistent plume of tropical moisture associated with Hurricane Joaquin produced historic rainfall over portions of South Carolina causing significant widespread freshwater flooding throughout the state. Several locations set daily and multi-day rainfall records, and the rainfall also resulted in moderate to major riverine flooding. The state suffered major damage to its transportation, communication, and medical infrastructure, multiple academic institutions, private and commercial industry, agriculture, and residences. The affected area includes Federal, State, County and Municipal facilities.

2. **Mission.** South Carolina in conjunction with the Federal interagency team, mutual aid partners, and private sector partners conducts intermediate recovery and mitigation in order to deliver the full range of federal, state and private sector programs and services to assist impacted citizens, restore damaged infrastructure, identify mitigation projects and shape the transition to long term recovery.

3. **Execution**

a. **Intent.** No later than six months from declaration (5 April 2016), all Stafford Act related activities have been transferred to Region IV, remaining PA projects have been transferred to a PA processing center, and the majority of long-term recovery activities implemented.

b. **Concept.** JFO closure within six months of declaration is the goal and will be adjusted as disaster recovery activity, obligations, staffing limitations, and applicant delays require. Weekly review of task completion status and projected completion dates will drive modification of the proposed closure date, additional resource requirements, or potential resource de obligation and demobilization. South Carolina will plan and coordinate the delivery of intermediate recovery programs to support our impacted citizens and restore critical infrastructure while setting the conditions to transition to long-term recovery within the next six months. The South Carolina Recovery Concept of Operations is built around the following Lines of Effort (LOEs) and supporting objectives:

1) **Line of Effort 1: People.** Provide safe and suitable housing, provide acute health care and restore impacted community health care capacity, restore employment opportunities, incorporate functional and access needs requirements into projects, and incorporate Whole Community into all planning efforts.

- Provide safe, suitable housing to impacted residents within 120 days.
- Sustain delivery of acute health services to affected residents and transition to community medical support (Vaccinations/ Counseling).
- Deliver disaster employment benefits to impacted workforce and locate alternate employment opportunities within 180 days.
- Incorporate functional needs service delivery into all aspects of community recovery plan.
- Integrate people into recovery planning through community outreach to have shared understanding of community outcomes.

2) **Line of Effort 2: Infrastructure.** Restore impacted roadways, rails, bridges, public health care facilities, and government facilities.

- Restore roads and highways to connect communities with services.

SOUTH CAROLINA IMPLEMENTATION PLAN – INTERMEDIATE RECOVERY CONCEPT
091630RDEC15

- Complete rapid road repairs (National Guard Engineer Effort) in order to mitigate impediments to life, health, and safety NLT 60 days.
 - Repair and maintain road/rail networks to facilitate rapid restoration of commercial industries and small business NLT 180 (+) days.
 - Repair public health facilities in order to mitigate impediments to life, health, safety of functional needs citizens NLT 60 days.
 - Repair public and local governance facilities to support community assembly, planning and outreach NLT 60 days.
- 3) Line of Effort 3: Commerce. Private sector outreach including property/home restoration, medical facilities, business restoration, and incorporation of stakeholders throughout.
- Conduct private sector outreach to connect vendors with affected homeowners/property managers to rebuild, replace housing NLT 60 days.
 - Coordinate with private medical service providers to ensure continuity of care and long term enduring service strategy NLT 60 days.
 - Coordinate with public and private stakeholders to reconstitute impacted businesses within 180 days to sustain local commerce.
 - Conduct restoration, repair, or replacement of commercial enterprise facilities that supports the requirements (meets capacity) of functional needs citizens.
 - Coordination with community leaders and citizens to ensure components of diversity, stability, sustainability are integrated into business and industry restoration plans.
- 4) Line of Effort 4: Community Capacity. Engagement of Whole Community throughout recovery operations to ensure impacted community emerges more resilient and inclusive of all stakeholders.
- Connect Volunteer Organizations Active in Disaster (VOADs) with communities with unmet needs to address housing shortfalls NLT 120 days.
 - Conduct community outreach to maintain essential information and message plan on health service resources in affected communities.
 - Coordinate with chambers of commerce and local business and industry leaders to develop immediate and alternate business restoration plans.
 - Coordinate advocacy and representation of functional needs citizens into community recovery plan.
 - Conduct community outreach to incorporate comprehensive citizen involvement in plans to restore public/private services.
- c. End State. Intermediate recovery programs under the Stafford Act are fully implemented across individual assistance, public assistance and mitigation functional areas to address recovery objectives and shape long term recovery development to achieve community desired outcomes.
- d. Programmatic Responsibilities.
- 1) Individual Assistance Team.
- Ensure disaster survivors have timely access to full range of programs and services to maximize their recovery, through coordination among local, state, federal, Tribal governments, voluntary agencies and the private sector.

- IA's roles and responsibilities are to ensure that individuals and families that have been affected by disasters have access to the full range of FEMA programs in a timely manner and that the best possible level of service is provided to applicants in the administration of these programs.
 - Provide FEMA FIDA status reports less PII to local government to support situational awareness and planning efforts.
- 2) Public Assistance Team.
- Provide assistance to State, Tribal and local governments, and eligible private nonprofit organizations so that communities can quickly respond to and recover from major disasters or emergencies declared by the President.
 - Through the PA Program, FEMA provides supplemental Federal disaster grant assistance for debris removal, emergency protective measures, and the repair, replacement, or restoration of disaster-damaged, publicly owned facilities and the facilities of certain Private Non-Profit (PNP) organizations.
 - Integrate mitigation components under Stafford Act 404 and 406 into the PA program to reduce hazards and vulnerabilities as a component of repair and restoration measures during the recovery process.
- 3) Hazard Mitigation Team.
- Partner with State, Tribal, local governments, and private sector partners to accomplish the mission of protecting lives and prevent or reduce the loss of property from hazard events.
 - Provide accurate, actionable, and accessible public information and messaging to the whole community to assist in recovery.
 - Provide technical assistance in analysis and evaluation on identified structures and critical infrastructure, including roads, bridges, dams, water and waste water treatment plants, and water distribution systems.
 - Educate stakeholders on mitigation opportunities at Public Assistance Applicant Briefings and Kick-off Meetings.
 - Assess state, tribal, and local mitigation capacities and strategies and provide resources and technical assistance.
 - Assess the factors that contributed to disaster effects and develop a strategy to educate about risk reduction opportunities, including floodplain and insurance technical assistance to local officials and communities.
 - Provide oversight and delivery of the Hazard Mitigation Grant Program and develop priorities for project selection in conjunction with the Interagency Coordination Committee.
- e. State Agency Responsibilities.
- 1) South Carolina Department of Transportation.
- Identify and prioritize all roads and bridges in need of repair as a result of the flooding event.
 - Identify other eligible work that serves the public interest (damaged assets).
 - Coordinate the repair and restoration of transportation infrastructure with the assistance of ESF-3 (Public Works and Engineering), to include coordinating with the U.S.

- Department of Transportation on the repair and replacement of roads and bridges on the Federal Aid System.
- Develop and publish a road and bridge repair timeline; develop, publish, and report milestones and progress.
 - Develop project worksheets for all identified flood-related projects.
 - Consider traffic volume and congestion that will be generated by infrastructure rebuilding and produce transportation corridors for impacted areas to minimize disruption.
 - Apply for all available federal funding to compensate for disaster-caused revenue shortfalls and to repair and replace capital facilities and vehicles as required.
- 2) South Carolina Division of Technology Operations.
- As required, coordinate alternate communication systems to augment damaged or inoperative systems.
 - Maintain contact and/or coordinate with:
 - FEMA
 - Other EOCs
 - JFO
 - Disaster Recovery Centers (DRCs)
 - County Emergency Management and other preparedness organizations, as situations require
 - Gather communications damage assessment information from public and private organizations (including telephone/cellular, broadcast and commercial radio stations, and cyber related outages) for integration into the recovery plan.
- 3) State Fiscal Accountability Authority (Public Works and Engineering).
- Identify damaged State government facilities.
 - Identify and contract for technical experts to conduct assessments of State damaged public works infrastructure.
 - Assist as required with the development of project worksheets for identified projects.
 - In conjunction with the South Carolina Department of Health and Environmental Control, provide or coordinate the engineering and procurement activities required to restore damaged water and sewer service infrastructure for citizens and critical facilities across affected areas.
 - Develop and publish a flood-related State facility repair timeline; develop, publish, and report milestones.
 - Maintain coordination with all necessary supporting agencies and organizations on operational priorities for repair and restoration.
- 4) South Carolina Department of Labor, Licensing, and Regulation. Coordinate and assist as required in supporting national level private nonprofit agencies deployed to assist in home repair, rehabilitation and replacement.
- 5) South Carolina Department of Social Services (Mass Care).
- Coordinate venues to bring together citizens and civic leaders with business, industry and Volunteer Organizations Active in Disaster (VOAD) leaders in order to assist in developing housing solutions.

SOUTH CAROLINA IMPLEMENTATION PLAN – INTERMEDIATE RECOVERY CONCEPT
091630RDEC15

- Coordinate with VOADs to ensure functional needs citizens and their advocates are integrated into the long term recovery and restoration planning effort.
 - Provide support as required to the long term recovery committee planning process.
- 6) South Carolina Department of Social Services (Food Services).
- Coordinate support for the implementation of the Disaster Supplemental Nutrition Assistance Program (DSNAP).
 - Ensure the safety and security of the food supply for both commercial and USDA foods.
- 7) South Carolina Emergency Management Division Finance and Administration Section.
Provide or coordinate the financial aspects for the provision of services, equipment, personnel, and supplies to support recovery operations.
- 8) South Carolina Emergency Management Division (Recovery and Mitigation Section).
Coordinate the Federal, State, local government, private sector and VOAD recovery and mitigation functions of the state disaster.
- 9) South Carolina Emergency Management Division (Public Information Officer).
- Provide effective public information through coordination with appropriate Federal, State, and local agencies and organizations to inform citizens and agencies of resources available.
 - Provide survivors with accurate, actionable, and accessible information in order to make informed decisions during the recovery process.
 - Keep all stakeholders aware of the elements in support of ongoing recovery efforts through joint coordination with the State of South Carolina and the SCEMD.
 - Present SCEMD, FEMA and other state, local and federal programs, operations, coordination, and outreach efforts in a positive and supportive light while maintaining the strictest standards of honesty and fairness.
 - Ensure all audiences including limited English Proficiency (LEP) and those with Additional Communications Needs (ACN), including persons with disabilities, and faith-based and other non-traditional communities are included in all messaging.
 - Keep disaster survivors, their families, neighbors and leaders informed about options available to assist them in their recovery. This covers a wide range of topics, including:
 - Registration, eligibility
 - State and local services, support
 - Disaster Recovery Centers (DRC) operations and services
 - Disaster Survivor Assistance teams (DSATs)
 - SBA loans
 - FEMA grants
 - Safety advice on returning to damaged homes and businesses
 - Beware of Fraud
 - What to Expect from Inspections
 - Co-branding and/or messaging from other federal agencies
 - Assistance to Individuals and Households program
 - Key program deadlines
 - Mitigation measures and resources, including flood insurance, and information about the National Flood Insurance Program.

- 10) South Carolina Department of Health and Environmental Control (Public Health Preparedness). Report the status of restoration projects and efforts to rehabilitate permanent medical facilities to operational status as requested.
- 11) South Carolina Department of Health and Environmental Control (Dam Management).
 - Implement within capacity and capability dam hazard mitigation measures outlined in the technical white paper.
 - Participate in planning to restore, repair and mitigate hazards of public and private dams that impact the public interest.
- 12) South Carolina Department of Mental Health. Provide outreach, education, and referral to citizens to include medical, financial, vocational, physical, and behavioral health services and provisions.
- 13) South Carolina Office of Regulatory Staff (Energy). As required, coordinate, monitor, and report the restoration of energy systems and rail infrastructure repairs in the affected areas.
- 14) South Carolina Law Enforcement Division. Provide for coordination and use of law enforcement personnel and equipment for general law enforcement throughout affected areas during restoration and recovery efforts.
- 15) Clemson University Livestock and Poultry Health (Animal and Agriculture Emergency Response).
 - Provide technical support and identify resources to minimize losses and support recovery efforts for animal and agriculture-related issues in affected areas.
 - Support SC Department of Agriculture in developing mitigation strategies and plans to reduce impacts to agribusiness during the 2016-2017 season.
- 16) South Carolina Department of Administration (Volunteer and Donation Management).
 - As required, ensure the expeditious delivery of solicited and/or unsolicited donated goods and volunteer services to affected areas in need during recovery.
 - Assess unmet needs at the local level in providing resources and volunteers to meet those needs from available volunteer organizations.
 - Coordinate credentialing requirements for volunteers.
- 17) South Carolina Department of Commerce (Business and Industry).
 - In conjunction with the University of South Carolina, update business census data and projections for impacted communities.
 - Coordinate venues to bring together property managers and affected citizens with vendors for repair and construction.
 - Assist in the effort of connecting citizens with public and private commercial stakeholders for participation in long-term recovery planning.
 - Coordinate with local stakeholders to identify and communicate employment opportunities.
 - Conduct retail planning meetings to develop more small retail opportunities.
 - Establish fixed and/or mobile Small Business Recovery Centers to provide information and assistance to aid small businesses in the long term recovery process.
 - Develop alternate business and employment location strategies as required.

SOUTH CAROLINA IMPLEMENTATION PLAN – INTERMEDIATE RECOVERY CONCEPT
091630RDEC15

- Assess the loss of small businesses in affected communities as a result of the disaster.
 - Coordinate with SC Department of Insurance in monitoring the deployment/activities of insurance claims adjusters.
 - Assist Recovery planners with restoration and recovery priorities and plans for private sector critical lifelines and other economic and business sectors.
 - In coordination with State agencies, federal government and SC Department of Insurance, assist in identifying and documenting economic and insurance impacts and losses.
 - Monitor and support restoration of private sector commercial facilities.
 - As requested, provide assistance and referrals to businesses interested in developing continuity of operations or disaster mitigation plans.
 - Support requests from the Governor concerning mitigation or redevelopment activities.
 - Document matters that may be needed for inclusion in agency, State, or federal briefings, situation reports and action plans.
 - Coordinate assessment and revision of existing mitigation plans, as necessary.
- 18) South Carolina Department of Employment and Workforce.
- Identify impacted workforce citizens.
 - Facilitate expedited disaster unemployment benefits to eligible affected citizens.
 - Coordinate with local stakeholders to identify and communicate employment opportunities.
 - Conduct localized job fairs throughout impacted communities.
 - Identify alternate employment opportunities in disaster recovery related fields.
- 19) South Carolina Department of Insurance. Expedite the mobilization of insurers to quickly address insurance claims that are a result of the disaster and help citizens navigate the claims process.
- 20) South Carolina Housing Authority.
- Establish and Chair the Housing Solutions Task Force and integrate members as required to develop solutions and leverage resources.
 - Develop the Housing Recovery Plan with partners to rapidly assess, inform and deliver housing options to impacted residents.
 - Identify the number of flood impacted residences within affected communities.
 - Develop and deliver housing options that have the potential to meet the needs of displaced individuals and families.
 - Ensure displaced citizens receive accurate housing information.
 - Coordinate with local stakeholders to identify builders and inspectors to support the rehabilitation and rebuild of damaged homes.
 - Identify VOADs to provide support in meeting unmet housing needs.
 - Identify all relevant data sources and communication channels to determine housing-related unmet needs.
 - Request and protect all relevant data needed that defines the population by geography, income, household size, and unmet needs in accordance with information sharing process.
- 21) South Carolina Department of Natural Resources (Land and Water Conservation)

SOUTH CAROLINA IMPLEMENTATION PLAN – INTERMEDIATE RECOVERY CONCEPT
091630RDEC15

- Participate as a member of the Dam Task Force to provide technical expertise on the entire watershed and mitigation actions that can be leveraged to reduce hazards and vulnerabilities.
 - Provide assistance as required to State and local governments on the National Flood Insurance Program.
 - Assist State and local governments with obtaining FEMA hydraulic and hydrology studies for use in the development of recovery and mitigation plans.
 - Assist as required SC Department of Agriculture in reporting and assessing impacts on crops and the timber industry.
- 22) South Carolina Department of Agriculture.
- Develop crop loss report and economic impacts to State revenue in conjunction with SC Department of Commerce.
 - Assist in connecting farmer's with available State and Federal resources to mitigate loss impacts in order to maximize agri-business resilience.
 - Develop mitigation strategies and plans in conjunction with Clemson Extension Services to reduce the impacts on agribusiness for 2016-2017 seasons.
- 23) South Carolina Lieutenant Governor's Office on Aging.
- Coordinate, compile, and distribute Federal, State, and Local resource information to the State's senior population to inform, educate, and update the senior population on preparedness, disaster recovery and hazard mitigation efforts.
 - Provide information, referrals, assistance, and advocacy to senior citizen flood victims to assist with unmet needs via each of the 10 Regional Area Agencies on Aging.
- f. Coordinating Instructions (Tasks Common to All).
- 1) Mitigation tasks common to all.
 - Support and plan for mitigation measures including monitoring and updating mitigation actions in the State Hazard Mitigation Plan.
 - Review, evaluate and comment on proposed State Hazard Mitigation Plan amendments, upon initiation and within review period as required.
 - Support requests and directives from the Governor and/or FEMA concerning mitigation and/or re-development activities.
 - Document matters that may be needed for inclusion in agency or state/federal briefings, situation reports and action plans.
 - 2) Review and amend organizational, state, and regional emergency preparedness, response, and recovery plans to include utilization of trainings and exercises.
 - 3) Support long term recovery priorities as identified by the Recovery Task Force and provide representation on the Recovery Task Force as required.
 - 4) All State agencies will develop project worksheets for all identified eligible projects and work within respective areas of responsibility.
 - 5) Programmatic Timelines.
 - Logistics Support: 5 October 2015 – 5 April 2016

SOUTH CAROLINA IMPLEMENTATION PLAN – INTERMEDIATE RECOVERY CONCEPT
091630RDEC15

- Public Assistance Support: 5 October 2015 – 5 April 2016
- Individual Assistance Support: 5 October 2015 – 30 April 2016
- Individual Assistance Key Timings.
 - Within first 90 days of declaration:
 - Disaster Recovery Centers closed
 - Deadline for SBA declaration
 - Disaster Survivor Assistance demobilized
 - Disaster Case Management Grant application deadline met
 - Individual Assistance registration deadline met

g. Public Assistance Timeline Goals. Project worksheets will be reported weekly, by applicant, in accordance with the reporting spreadsheet.

	Category/ Program	From Kickoff				
		15 Jan	15 Feb	15 Mar	15 Apr	15 May

4. **Sustainment.** State agencies are responsible for all costs incurred that are not eligible under the public assistance grant program.

5. **Command and Control.** TBP.

SOUTH CAROLINA IMPLEMENTATION PLAN – INTERMEDIATE RECOVERY CONCEPT
091630RDEC15

Annex A (Execution Checklist)

<u>Core Capability</u>	<u>Task</u>	<u>Responsible Party</u>	<u>Start Date</u>	<u>End Date</u>
Infrastructure Systems (Recovery)	Identify and prioritize all roads and bridges in need of repair.	SC Dept. of Transportation; Private Sector	10/5/15	11/4/15
Planning	Develop/publish road & bridge repair timeline; develop, publish and report milestones	SC Dept. of Transportation	10/5/15	11/4/15
Operational Coordination	Submit Resource Request for NG RRR Team	SC Dept. of Transportation	10/5/15	11/4/15
Economic Recovery	Conduct retail planning meetings to develop more small retail opportunities.	SC Dept. of Commerce	10/5/15	11/4/15
Economic Recovery	Establish fixed and/or mobile Small Business Recovery Centers to provide information and assistance to aid small businesses in the recovery process.	SC Dept. of Commerce	10/5/15	11/4/15
Infrastructure Systems (Recovery)	Review damaged transportation infrastructure to address traffic volumes/congestion that will be generated by potential land use changes or infrastructure rebuilding.	SC Dept. of Transportation	10/5/15	11/4/15
Infrastructure Systems (Recovery)	Consider traffic volume/congestion that will be generated by infrastructure rebuilding and produce transportation corridors for impacted areas to minimize disruption.	SC Dept. of Transportation	10/5/15	11/4/15
Infrastructure Systems (Recovery)	ID and contract for technical experts to conduct assessments.	SC Dept. of Transportation	10/5/15	11/4/15
Infrastructure Systems (Recovery)	Apply for all available federal funding to compensate for disaster-caused revenue shortfalls, and to repair and replace capital facilities and vehicles.	SC Dept. of Transportation	10/5/15	11/4/15
Economic Recovery	ID eligible work that serves the public interest (damaged assets).	SC Dept. of Transportation	10/5/15	11/6/15
Infrastructure Systems (Recovery)	Develop and publish road and bridge repair timeline; develop, publish and report milestones	SC Dept. of Transportation	10/5/15	11/15/15
Health and Social Services	Provide outreach, education, and referral to citizens to include medical, financial, vocational, physical, and behavioral health services and provisions.	SC Dept. of Mental Health	11/2/15	12/4/15
Operational Coordination	Coordinate venues to connect property managers and affected citizens with vendors for repair and construction of damaged properties.	SC Department of Commerce	10/5/15	12/4/15

SOUTH CAROLINA IMPLEMENTATION PLAN – INTERMEDIATE RECOVERY CONCEPT
091630RDEC15

<u>Core Capability</u>	<u>Task</u>	<u>Responsible Party</u>	<u>Start Date</u>	<u>End Date</u>
Health and Social Services	Identify public sector and public health facilities in need of repair as a result of the floods.	SC Dept. of Health and Environmental Control; SC Dept. of Health and Human Services	10/5/15	12/4/15
Infrastructure Systems (Recovery)	Identify damaged State facilities as a result of the disaster.	State Fiscal Accountability Authority, Office of State Engineer (PA-Government Buildings)	10/5/15	12/4/15
Economic Recovery	Update business census data and projections for impacted communities.	SC Dept. of Commerce	10/5/15	1/4/16
Economic Recovery	Assess economic loss projections for impacted communities in order to develop commercial restoration strategies to mitigate economic impact.	SC Dept. of Commerce	10/5/15	1/4/16
Planning	Assist to connect citizens with public/private commercial stakeholders for participation in long term recovery planning.	SC Dept. of Commerce	10/5/15	2/2/16
Operational Coordination	Coordinate venues to bring together citizens and civic leaders with business, industry & VOAD leaders in order to develop housing solutions.	State VOAD; SC Dept. of Social Services	10/5/15	2/2/16
Operational Coordination	Coordinate with VOADs to ensure functional needs citizens and their advocates are integrated into the long term recovery and restoration planning effort.	SC Department of Social Services	10/5/15	2/2/16
Economic Recovery	Coordinate venues to bring together citizens/civic leaders with business, industry leaders in order to develop alternate business and employment solutions.	SC Department of Commerce; SC Dept. of Employment and Workforce	10/5/15	2/2/16
Housing	Establish Housing Solutions Task Force and integrate members as required to develop solutions and leverage resources.	SC Housing Authority	10/30/15	2/2/16
Housing	Identify number of impacted residences to determine housing requirements.	SC Housing Authority	10/5/15	2/2/16

SOUTH CAROLINA IMPLEMENTATION PLAN – INTERMEDIATE RECOVERY CONCEPT
091630RDEC15

<u>Core Capability</u>	<u>Task</u>	<u>Responsible Party</u>	<u>Start Date</u>	<u>End Date</u>
Housing	Identify VOADs to provide support in meeting housing needs.	SC Housing Authority; SC Dept. of Social Services	10/5/15	2/2/16
Housing	Integrate SBA; Coordinate with Dept. of Insurance.	SC Dept. of Social Services; SC Department of Insurance	10/5/15	2/2/16
Housing	Coordinate with local stakeholders to identify builders and inspectors to support housing rehabilitation and rebuilds.	SC Housing Authority	10/30/15	2/2/16
Economic Recovery	Assess potential economic loss in Parks, Recreation and Tourism venues in order to develop mitigation plans prior to MAR 16	SC Dept. of Commerce; State Chamber of Commerce; SC Parks, Recreation and Tourism	10/5/15	2/19/16
Infrastructure Systems (Recovery)	Identify and contract for technical experts to conduct assessments.	State Fiscal Accountability Authority, Office of State Engineer (PA-Government Buildings)	10/5/15	3/1/16
Infrastructure Systems (Recovery)	Develop project worksheets for all identified projects.	State Fiscal Accountability Authority, Office of State Engineer (PA-Government Buildings)	10/5/15	3/1/16
Infrastructure Systems (Recovery)	Develop and publish State flood-related facility repair timeline; develop, publish and report milestones	State Fiscal Accountability Authority, Office of State Engineer (PA-Government Buildings)	10/5/15	3/1/16
Planning	Develop alternate business and employment location strategies for impacted small businesses to rapidly return the workforce to the market.	SC Department of Commerce; SC Dept. of Employment and Workforce	10/5/15	4/2/16
Public Information/ Warning	Conduct town hall meetings IOT incorporate citizen inputs and concerns.	PIO	11/2/15	4/2/16

SOUTH CAROLINA IMPLEMENTATION PLAN – INTERMEDIATE RECOVERY CONCEPT
091630RDEC15

<u>Core Capability</u>	<u>Task</u>	<u>Responsible Party</u>	<u>Start Date</u>	<u>End Date</u>
Planning	Integrate private sector partners to assist in recovery planning to develop enhanced resilience and sustainable retail opportunities.	SC Dept. of Commerce; SC Dept. of Health and Environmental Control; State Chamber of Commerce	10/5/15	4/2/16
Economic Recovery	Identify impacted workforce citizens receiving disaster unemployment benefits in order to identify potential business impacts.	SC Dept. of Employment and Workforce	10/5/15	4/2/16
Economic Recovery	Coordinate with Chambers of Commerce and local stakeholders to identify and communicate employment opportunities with displaced workforce in order to reduce impact to the community.	SC Dept. of Employment and Workforce; SC Dept. of Commerce	10/30/15	4/2/16
Economic Recovery	Expedite unemployment benefits to affected citizens.	SC Dept. of Employment and Workforce	10/5/15	4/2/16
Economic Recovery	Conduct localized job fairs.	SC Dept. of Employment and Workforce	10/30/15	4/2/16
Economic Recovery	Identify alternate employment opportunities in disaster recovery-related fields in order to retool or retrain displaced workforce.	SC Dept. of Employment and Workforce	10/5/15	4/2/16
Economic Recovery	Coordinate venues to bring together citizens/civic leaders with business and industry leaders in order to restore commerce in affected areas.	SC Department of Commerce	11/2/15	4/2/16
Economic Recovery	Assess impact on agribusiness economic loss in order to identify near and long term impacts to our farmers and supporting industries	SC Dept. of Agriculture; SC Dept. of Commerce; Clemson University	10/5/15	4/2/16
Infrastructure Systems (Recovery)	Assess watershed flooding impacts on the communities in order to reduce hazard vulnerabilities and enhance resilience, specifically including Gills Creek and 12 Mile Creek watersheds.	SC Dept. of Transportation; SC Dept. of Natural Resources; SC Dept. of Revenue; SC Dept. of Health and Environmental Control	10/5/15	6/1/16

SOUTH CAROLINA IMPLEMENTATION PLAN – INTERMEDIATE RECOVERY CONCEPT
091630RDEC15

<u>Core Capability</u>	<u>Task</u>	<u>Responsible Party</u>	<u>Start Date</u>	<u>End Date</u>
Infrastructure Systems (Recovery)	Develop PWs for all identified projects.	SC Dept. of Transportation	10/5/15	6/1/16
