

All,

This message is in regards to the upcoming NIMS Implementation Workshops. We have had several individuals to contact us and inquire as to the agenda/lesson plan/content of the workshops. It is important to understand that these sessions are workshops vice training courses. For the most part, during these workshops, there will be discussions relating to your status in the implementation of NIMS at your particular agency, to include your successes and/or problems. We are hoping that you will be able to tell us (NIMS Integration Center) how we can better assist you in your implementation process.

Again, although we view these workshops as valuable tools, they are not training courses and do not satisfy the requirements of (replace) any of the required NIMS training courses.

We hope that this has cleared up any misunderstandings. Finally, we would like to say that the interest in these courses, to date, has been very promising and we anticipate that this will continue.

Feel free to contact any of the POC 's listed on the notices for the courses, with any questions/concerns you may have.
