I. INTRODUCTION

A. General

The following Evacuation Decision/Response Timeline describes the major activities from initiation of response through post-reentry. Prior to a storm, times are expressed in “E Hour” format, which are the number of hours prior to beginning evacuation operations. These times are different than “H Hour” times shown in many plans and the post storm time line of this plan. H Hour is defined as arrival of tropical storm force winds, which in many instances is approximately two days after an evacuation has begun. The exact correlation between E Hour and H Hour differs by conglomerate and decisions made in how to execute a specific evacuation.

The SERT is expected to complete procedures outlined in their respective ESF SOP, and the SCEOP.

B. Purpose

The Timeline noted below assumes at least 72 hours before initiating evacuation to allow affected State, county, and municipal agencies sufficient time to prepare.

For situations with less than 72 hours preparation time, ESF actions must be compressed into the time available. Those actions noted below by an asterisk (*) require alternative procedures as noted.

C. Scope

Certain actions will be accomplished only for a response to a major (Category 3 or greater) hurricane.

Items in BOLD are time sensitive events/decisions whose delay will have a negative effect on successful execution of an evacuation.

</thead>
</table>
| **OPCON 2** 72 Hours Prior to Evacuation           | **SCEMD:**  
- Initiate OPCON 2 activities as required.  
- Increase SEOC activation staffing based on current threat.  
- Activate the Emergency Operations Plans (EOP).  
- Notify ESFs and State agencies to initiate ESF SOP activities.  
- Assess storm forecast and potential state/regional impact using hurricane-tracking tools.  
- Advise key personnel and ESFs to begin preparation for possible mass evacuation; notify ESFs 1, 6, 8, 13, 15, 16, 17 and 19.  
- Initiate disaster intelligence cycle.  
- Coordinate with FEMA Region IV Threat Assessment Unit, Hurricane Liaison Team (HLT) and Evacuation Liaison Team (ELT).  
- Develop potential storm scenarios in conjunction with the NWS offices and the State Climatology Office to brief during conference calls.  
- Submit request for a Presidential Pre-Disaster Declaration, direct federal assistance and category B emergency protective measures.  
- Conduct county and executive conference calls.  
- Coordinate with FEMA for remote sensing and initiate imagery collection event with USGS.  
  - **Governor:** Sign Governor’s State of Emergency Declaration to support disaster operations.  
  - **USGS:** Deploy temporary river gauges to monitor possible inland flooding.  
  - **ESF-1:** SCDOT - Notify districts, and reviews schedules and agreements.  
  - **ESF-2:** Fueling of equipment, communications generators. Notify communications partners.  
  - **ESF-6:** Cot Distribution Plan Decision  
    - Verify possible shelter and staffing levels in coordination with Red Cross.  
  - **ESF-8:** Initiate Ambulance contract for Mandatory Medical Evacuation if required.  
    - Mobilize and monitor Emergency Medical Services transport.  
    - Monitor to ensure Healthcare facilities contact transportation providers.  
    - Monitor status of Ambulance contract, if requested.  
    - Monitor EMAC assistance.  
  - **ESF-13:** Issue notification to all personnel to be on alert, ready to respond.  
  - **ESF-15:** Enhance public awareness campaign. |

</tr>
</tbody>
</table>

## E- 72 Hours (Cont)

- **ESF-16:** Issue warning order to SC Highway Patrol (SCHP).
- **ESF-18:** Notify in-state and out-of-state response partners
- **ESF-19:**
  - **Issue National Guard Warning Order for State activation.**
    - **If insufficient time to issue Warning Order, may need to source units from locations closer to evacuation area and phase forces in as they are activated.**
  - Consider recommending National Guard request for Title 32 funding support.

## E- 60 Hours

- **SCEMD:**
  - Notify SCDOT to contact portable toilet and bottled water vendors to support set up of comfort stations.
  - Notify ESF 6 of possible shelter operations and logistical needs.
  - Create a new State incident in Palmetto.
- **Governor:** **Go/No-Go decision on initiation of Mass Transportation Plan.**
- **ESF-1:** Notify Department of Education of possible support requirements for Mass Transportation Plan
  - Verify mass transportation needs with counties.
- **ESF-8:**
  - Monitor ongoing census reduction of health care facilities.
  - Consider requests for facility exemptions from proposed evacuation order on a case-by-case basis.
Evacuation Decision and Response Time Line

</tr>
</thead>
<tbody>
<tr>
<td><strong>OPCON 2</strong></td>
<td>48 Hours Prior to Evacuation</td>
</tr>
</tbody>
</table>

**E- 48 Hours**

- **Governor:** Go/No-Go decision on initiation of Mandatory Medical Evacuation (sign Mandatory Medical Evacuation Order w/exceptions).
- **SCEMD:**
  - Notify ESF-16 to preposition highway advisory radios.
  - Notify contingency contracts of possible activation.
- **SCEMD/ESF-1/13/16:** Evaluate criteria for lane reversal actions.
- **ESF-2:** Have pre-planned radio/airborne equipment ready for pick up of ESF-16.
  - May be insufficient time for ESF-16 to distribute all equipment per the plan. A prioritized distribution scheme may be employed.
- **ESF-8:**
  - Initiate emergency radio communications tests among hospitals and public health departments.
  - Monitor census reduction and movement of critical care patients from hospitals in projected surge zones.
  - Continue healthcare facility coordination.
- **ESF-19:**
  - Select tentative Logistical Staging Areas (LSA).
  - Request National Guard install and activate four (4) additional telephone lines in SLED pre-assigned staging armories.
  - SCNG: Identify routes for deployment and support.
### Evacuation Decision and Response Time Line

<table>
<thead>
<tr>
<th>Time Prior to Public Notification of an Evacuation</th>
<th>Operational Key Event, Decision Point, or Timing Window (timings are situation dependent)</th>
</tr>
</thead>
<tbody>
<tr>
<td>OPCON 2</td>
<td>36 Hours Prior to Evacuation</td>
</tr>
</tbody>
</table>

- **SCEMD:**
  - Increase SEOC activation staffing based on current threat.
  - Assess storm forecast and potential state/regional impact using hurricane-tracking tools.
  - Coordinate with FEMA Region IV Threat Assessment Unit, Hurricane Liaison Team (HLT) and Evacuation Liaison Team (ELT).
  - Update potential storm scenarios in conjunction with the NWS offices and the State Climatology Office to brief during conference calls.

- **Governor:** Call the National Guard to State Active Duty.

- **SCEMD:**
  - Continue county and executive conference calls.
  - Participate in Federal and/or multi-state conference calls coordinating regional operations.
  - Notify SCNG to man processing sites when Mass Transportation resources are in place.
  - Prepare draft Executive Order for Evacuation.
  - Pre-stage resources, to include EMAC teams, if required.

- **ESF-2:** Prepare state cache equipment and assign talkgroups/frequency channels.

- **ESF-4:** Stage resources and equipment as required.

- **ESF-6:** Notify shelter partners, to include ESF-17, of possible shelter activation.

- **ESF-8:** Monitor ongoing census reduction of licensed healthcare facilities.

- **ESF-9:**
  - Initiate SAR Planning Cell.
  - Initiate EMAC discussions.

- **ESF-12:** Activate Evacuation Fuel Plan as required.

- **ESF-13:** Mobilizes evacuation support personnel and resources to support Evacuation. If warranted this may be delayed to OPCON 2.

- **ESF-15:** Intensify public information campaign.

- **ESF-16:** Emergency Traffic Management - mobilizes evacuation support personnel and resources. *Based on the storm’s path and intensity as well as evacuation response patterns from coastal South Carolina and nearby states-particularly Florida and Georgia- ESF 16 may initiate mobilization, deployment, and implementation for evacuation operations-to include lane reversals- up to 12 hours (E-48) in advance of the current timeline. These early actions are especially important for ensuring access to evacuation routes for
<table>

</tr>
</tbody>
</table>

*South Carolina evacuees and for mitigating likely congestion along the evacuation routes.*

- **ESF-17:**
  - Disseminate information, including emergency stable options, to horse owners considering early evacuation.
  - Disseminate storm preparedness guidance to livestock owners and agricultural producers

- **ESF-19:**
  - Activate selected National Guard units to support evacuations.
  - Initiate/receive/start military LSA operations for troop support.
  - LNOs forward deploy to select County EOCs.
### Evacuation Decision and Response Time Line

<table>
<thead>
<tr>

</thead>
<tbody>
<tr>
<td>OPCON 1</td>
<td>24 Hours Prior to Evacuation</td>
</tr>
</tbody>
</table>

#### E- 24 Hours

- **SCEMD:**
  - Initiate OPCON 1 activities as required.
  - Increase SEOC activation staffing based on current threat.
  - Notify SCDOT to deploy resources to comfort stations.
  - Assess storm forecast and potential state/regional impact using hurricane-tracking tools.
  - Update potential storm scenarios in conjunction with the NWS offices and the State Climatology Office to brief during conference calls.

- **ESF-16:** Pre-position SCHP TCP personnel into the areas(s) as appropriate.

- **Governor:** Go/No-Go decision on Evacuation (sign Evacuation Order).

- **SCEMD:**
  - Advise counties and SERT of Governor’s evacuation decisions and TCPs as determined by ESF-16.
  - Notify ESF-6 to execute Evacuation Shelter Plan.
  - Continue county and executive conference calls.
  - Activate Disaster Logistics Support Plan.
  - Activate contingency contracts.
  - Notify PIPS staffing Point of Contact that PIPS operations will begin at specified time.
  - Request pre-landfall satellite image for post-landfall comparison.

- **ESF-4:** Finalize staging of staff and equipment.

- **ESF-6:**
  - **Execute Evacuation Shelter Plan for designated zones.**
  - Update status of shelters and staffing resource gaps.

- **ESF-8:** Continue healthcare facility coordination.

- **ESF 9:** Finalize staging of staff and equipment.

- **ESF-12:** Coordinate implementation of Evacuation Fuel Plan.

- **ESF-13:** Deploy security resources to staging areas.

- **ESF-16:** Activate Evacuation Messaging on DOT messaging boards.

- **ESF-17:**
  - Provide information about shelter options to evacuating animal owners.
  - Consider activation of MOUs with out-of-state resources.

- **ESF-19:** Pre-position military TCP and LSA personnel as appropriate.
## Evacuation Decision and Response Time Line

<table>
<thead>
<tr>
<th>Time Prior to Public Notification of an Evacuation</th>
<th>Operational Key Event, Decision Point, or Timing Window (timings are situation dependent)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>OPCON 1</strong> 24 Hours Prior to Evacuation</td>
<td></td>
</tr>
</tbody>
</table>

**E- 16 to E- 13 Hours**
- ESF-6:
  - Prepare to execute evacuation shelter plan.
  - Provide status of shelters opening and staffing/resource levels.
  - ESF-15: Focus Public Information campaign specifically on evacuation information.

**E- 12 Hours**
- SCEMD:
  - Alert PIPS for imminent activation.
  - Continue monitoring NHC forecasts.
- Mass Transportation Plan
  - Equipment and personnel in place at Embarkation/Debarkation points.
  - Vehicles are in place at Vehicle Staging Areas.
- ESF-15:
  - Issue news releases delineating vulnerable areas.
  - Initiate Public Information program to announce Mass Transportation Plan.
## Evacuation Decision and Response Time Line (continued)

<table>
<thead>
<tr>
<th>Time Prior to Public Notification of an Evacuation</th>
<th>Operational Key Event, Decision Point, or Timing Window (timings are situation dependent)</th>
</tr>
</thead>
<tbody>
<tr>
<td>OPCON 1 6 Hours Prior to Evacuation</td>
<td></td>
</tr>
</tbody>
</table>

- **E- 6 to E- 3 Hours**
  - **SCEMD:**
    - SCEOC continues at Full Activation.
    - Activate PIPS and announce telephone number.
    - Assess storm forecast and potential state/regional impact using hurricane-tracking tools.
    - Review the SC Recovery Plan and prepare to coordinate damage assessment operations.
  - **Governor:** Announce evacuation.
  - **Mass Transportation vehicles move to Motor Coach Forward Staging Areas.**
  - **SCEMD:** 1st Evacuee bus departs; process continues until last bus departs or -2 hours to onset of tropical force winds.
  - **ESF-6:** Provide status of open shelters and staffing/resource levels
  - **ESF-15:**
    - Focus public information campaign specifically on evacuation information.
    - Re-issue news releases delineating vulnerable and evacuation areas.
  - **ESF-16:**
    - Direct and oversee staffing of TCPS for traffic control
    - Stage resources in preparation for lane reversals and implement lane reversals if lane reversals are ordered
    - Monitor evacuation status and traffic flow (speed, traffic counts, accidents, and critical intersections)
  - **ESF-17:** Coordinate resources to support animal emergency response.
  - **ESF-19:** Civil Support Team deploys as required.

- **E Hour**
  - **ESF-13:** Security missions become operational.
    - **If National Guard is not activated for traffic reversal TCPS, Law Enforcement Personnel working security missions will be utilized on TCPS. Once reversal is complete, these officers will return to security missions.**
  - **ESF-13/ESF-19:** TCPS manned and prepared to control traffic.
  - **ESF-15:** Coordinate and issue Integrated Public Alert and Warning System Messages (IPAWS) as requested or directed.
  - Beginning approximately 6 hours before arrival of Tropical Storm Force Winds, move to Shelter In Place locations.
Evacuation Monitoring

<table>
<thead>
<tr>
<th>Lane reversal may not initially be implemented based on intensity/track of storm and the public response</th>
<th>ESF-16:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>• Continue monitoring evacuation status and traffic flow (speed, traffic counts, accidents, and critical intersections)</td>
</tr>
<tr>
<td></td>
<td>• If lane reversal was not initiated with the evacuation order</td>
</tr>
<tr>
<td></td>
<td>o Maintain staging of lane reversal resources</td>
</tr>
<tr>
<td></td>
<td>o Advise if lane reversal is necessary</td>
</tr>
<tr>
<td></td>
<td>o Initiate lane reversal operations if ordered</td>
</tr>
</tbody>
</table>

For each storm

| Evacuation status monitoring/reporting of |
|---|---|
| | • Shelters status (General Population and MNS, ESF-6) |
| | • Status of licensed medical facilities (ESF-8) |
| | • Media activities (ESF-15) |
| | • Traffic situation (ESF-16) |
| | • Hotel/motel availability (ESF-24) |
| | • Fuel Situation (ESF-12) |
| | • Mass Transportation Status (ESF-1/SCEMD) |
| | • Communications Status (ESF-2) |
| | • PIPS Inquires (SCEMD) |

Evacuation can take 44 hours or more, and will be followed by a period of time awaiting storm arrival which will be used by all individuals and organizations for final checks and preparation. Force protection is a primary focus. As landfall occurs, there is a period of hours for the storm itself to pass.

A continuous effort to remain in contact with affected areas by all means available, as well as monitoring the status and well-being of shelters, development of known logistical or resource requirements, and maintenance of communication by all sources highlight this time period. These efforts will focus on the preservation of life and property, as well as the determination of needs in the post-storm environment. Efforts to determine the magnitude of storm damage and the requirements of the support effort are early needs. Finally, through coordination with affected counties, the SEOC will coordinate public information and required resources for reentry based on county decisions and priorities.
## Post Landfall Response Initial Time Line

<table>
<thead>
<tr>
<th>Time Post Landfall and storm completion</th>
<th>Operational Key Event, Decision Point, or Timing Window (timings are situation dependent)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>OPCON 1</strong></td>
<td>The activities in this time line reflect only specific items. ESFs will refer to the SCEOP and internal SOPs to address all specific topics and tasks</td>
</tr>
<tr>
<td><strong>Priorities for immediate post landfall activities will focus on:</strong></td>
<td></td>
</tr>
<tr>
<td>o Life saving and search and rescue.</td>
<td></td>
</tr>
<tr>
<td>o Initiate rapid damage assessment.</td>
<td></td>
</tr>
<tr>
<td>o Re-establish communications.</td>
<td></td>
</tr>
</tbody>
</table>

### H+ 0-6 hours

- **SCEMD:**
  - Continue Full Activation as required.
  - Provide weather outlook for the next 24-48-72 hours in conjunction with NWS and State Climatology Office.
  - Coordinate disaster intelligence from all sources.
  - Re-establish communications to critical facilities (e.g. Emergency Operations Centers (EOC), hospitals, shelters, etc).
  - Assign Government Emergency Telephone System (GETS) cards as needed.
  - Modify draft request for Presidential Post Disaster Declaration as required.

- **ESF-1:**
  - Determine status of the road network.
  - Coordinate with ESF-19 for road clearance assistance (if necessary).

- **ESF-2:**
  - Determine status of communications networks; re-establish communications to all affected areas, determine needs and requirements.
  - Prepare communications plan to support disaster areas.
  - Deploy emergency communications support teams and assets as needed.

- **ESF-3:**
  - Provide utility and water status in impacted areas.

- **ESF-4:** Monitor and track status of local fires and firefighting capabilities.

- **ESF-6:**
  - Provide Shelter Status – communications, occupancy, accessibility, power, occupancy, unmet needs and ongoing issues.
  - Provide status of local feeding requirements and available resources.
### Post Landfall Response Initial Time Line

<table>
<thead>
<tr>
<th>Time Post Landfall and storm completion</th>
<th>Operational Key Event, Decision Point, or Timing Window (timings are situation dependent)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>OPCON 1</strong></td>
<td>The activities in this time line reflect only specific items. ESFs will refer to the SCEOP and internal SOPs to address all specific topics and tasks</td>
</tr>
</tbody>
</table>

- **ESF-8**: Provide status of healthcare facilities.
- **ESF-9**: Track status of Urban S&R tasks, needs, and capabilities.
- **ESF-10**: Provide information regarding any known Hazardous Material (HAZMAT) threats.
  - Assess high risk dams (state regulated) and unregulated dams as required.
- **ESF-12**: Provide status of natural gas pipelines and natural gas supplies.
  - Provide status of power grid to impacted areas.
  - Provide status of vehicle fuels/resupply.
- **ESF-13**: On-duty Task Force reestablishes security presence IAW directives.
- **ESF-15**: Coordinate with public information agencies to broadcast bulletins about National Weather Service (NWS) advisories, restricted areas and protective actions.
  - Focus Public Information campaign specifically on remaining clear of the disaster area and providing information on the affected areas.
- **ESF-16**: Provide post disaster intelligence and infrastructure status reports to local EOCs.
  - Prepare for/execute a shift change for next operational period.
- **ESF-17**: Coordinate needed resources for animal/agricultural issues.
- **ESF-18**: Alert Seventh Day Adventist regarding Donated Goods Warehouse operation.
  - Process and assign (through coordination with Ops) volunteer personnel.
- **ESF-19**: Deploy Civil Support Team communications van in support of State missions as ordered.
- **Community Emergency Response Teams (CERT)**, State Guard, National Guard and other Volunteers from western counties begin preparations to move to affected counties to assist Counties in point distribution services.

III. RE-ENTRY AND RECOVERY OPERATIONS

Once the Governor rescinds an evacuation order, reentry operations may begin. Reentry is the transition phase to recovery operations. The SEOC remains at OPCON 1 during reentry. Reentry is a local decision. At a minimum, the following areas/ESFs should consider and accomplish the listed items in the table below.

<table>
<thead>
<tr>
<th>RESPONSIBLE AGENCY/ESF/SECTION</th>
<th>ACTIONS</th>
</tr>
</thead>
</table>
| SCemd                         | Continue staffing SEOC with the following ESFs/Sections, as required:  
|                               | ESF 1: Transportation  
|                               | ESF 2: Communications  
|                               | ESF 3: Public Works and Engineering  
|                               | ESF 4: Firefighting  
|                               | Planning Unit: Information and Planning  
|                               | ESF 6: Mass Care  
|                               | Resource Unit: Resource Support and Planning  
|                               | ESF 8: Health and Medical Services  
|                               | ESF 9: Search and Rescue  
|                               | ESF 10: Environmental and Hazardous Materials  
|                               | ESF 11: Food Services  
|                               | ESF 12: Energy  
|                               | ESF 13: Law Enforcement  
|                               | ESF 16: Evacuation Traffic Management  
|                               | ESF 17: Animal/Agriculture Emergency Response  
|                               | ESF 18: Donated Goods and Volunteer Services  
|                               | ESF 19: Military Support  
|                               | ESF 24: Business and Industry  
|                               | Ops:  
|                               | ☐ Notify all counties of situation status.  
|                               | ☐ Deploy assistance teams as requested.  
|                               | Plans:  
|                               | ☐ Prepare executive order rescinding evacuation order. Project re-entry areas where applicable.  
|                               | ☐ Provide weather information as required.  
|                               | Logistics  
|                               | ☐ Conduct staging area coordination.  

## REENTRY AND RECOVERY OPERATIONS

<table>
<thead>
<tr>
<th>RESPONSIBLE AGENCY/ESF/SECTION</th>
<th>ACTIONS</th>
</tr>
</thead>
</table>
| **ESF-1 Transportation**     | Track status of road network, and coordinate road clearance priorities.  
|                               | Contact SCDOT EOC to determine status of all bridges, roadways, SCDOT equipment, personnel, and facilities affected by the storm, as required.  
|                               | Contact the SCDOE to inform them of the OPCON change and provide damage assessment.  
|                               | Contact the SCDC to inform them of the OPCON change.  
|                               | Contact the SPA to inform them of OPCON change and provide damage assessment.  
|                               | Contact State Fleet Management to inform them of the OPCON change and provide damage assessment.  
|                               | Contact the SCDOC, Rail Division, to inform them of the OPCON change and to assess the status of Rail assets and provide damage assessment.  
|                               | Contact Aeronautics Commission to inform them of OPCON change, assess Air assets and provide airport damage assessments.  
|                               | Contact the U. S. Coast Guard to inform them of the OPCON change and assess the harbor and navigable waterway status.  
|                               | Prepare for equipment/personnel requests from counties affected by the storm.  
|                               | Position signage (variable message boards, road markers) to facilitate reentry, as required.  
|                               | Coordinate Air Branch Operations. |
| **ESF-2 Communications**      | Monitor Status of communications network.  
|                               | Coordinate communications to critical needs (e.g., 911/dispatch, public safety responders, EOCs, and hospitals.) |
| **ESF-3 Public Works and Engineering** | Provide information regarding water and sewer system disruption and re-establishment.  
|                               | Provide information regarding damage to public infrastructure and repair of public infrastructure to include critical facilities. |
| **ESF-4 Fire Fighting**       | Monitor and track status of local fires and firefighting capabilities.  
|                               | Conduct aerial damage assessments of timber and reentry routes.  
|                               | Coordinate with local DOT agencies concerning the need for SCFC equipment to assist with debris removal from local and secondary roads. |
## REENTRY AND RECOVERY OPERATIONS

<table>
<thead>
<tr>
<th>RESPONSIBLE AGENCY/ESF/SECTION</th>
<th>ACTIONS</th>
</tr>
</thead>
</table>
| **ESF-6 Mass Care**           | ☐ Determine sheltering needs based on damages assessment information.  
☐ Identify shelters available for post-impact use.  
☐ Assess availability of SCDSS/ SCDHHS employees, and Red Cross/ other VOAD volunteers to manage shelters.  
☐ Activate mutual aid as needed.  
☐ Develop staffing plan to support shelters and/or establish sheltering task force for coordination.  
☐ Coordinate with ESF-11 and other resources to ensure feeding is available for fixed and mobile operation and/or establish feeding task force for coordination.  
☐ Implement closing and consolidation procedure in coordination with Operations, Red Cross, and counties.  
☐ Coordination and assess ADA and Functional and access needs as needed. |
| **ESF-8 Health and Medical**  | ☐ Determine and track status of public health and medical support systems.  
☐ Monitor healthcare facility conditions and needs  
☐ Request Federal medical assistance as needed.  
☐ Close and consolidate Medical Needs Shelters in coordination with ESF-6.  
☐ Monitor status of healthcare facilities. |
| **ESF-9 Search and Rescue**   | ☐ Track status of Search & Rescue tasks, needs, and capabilities. |
| **ESF-10 Hazardous Materials**| ☐ Provide information regarding any known Hazardous Material threats.  
☐ Provide debris guidance, as requested.  
☐ Provide technical assistance to coastal communities; conduct post-event damage assessment and provide permits or waivers for repair and reconstruction.  
☐ Assess High/Significant Hazard dams (state regulated) in affected areas. |
| **ESF-11 Food Services**      | ☐ Track status of local feeding requirements and available resources.  
☐ Assess and acquire food stocks as required. |
| **ESF-12 Energy**             | ☐ Track status of power grid to impacted areas.  
☐ Track status of natural gas pipelines and natural gas supplies. |
| **ESF-13 Law Enforcement**    | ☐ Respond to security requirements.  
☐ Determine the status of law enforcement and other disaster conditions from local authorities.  
☐ Plan, coordinate, and execute law enforcement duties with local and county governments. |
## REENTRY AND RECOVERY OPERATIONS

<table>
<thead>
<tr>
<th>RESPONSIBLE AGENCY/ESF/SECTION</th>
<th>ACTIONS</th>
</tr>
</thead>
</table>
| **ESF-15 Public Information** | □ Coordinate with PIOs in the local EOCs and SEOC regarding need to issue coordinated information about when and where it is safe for residents to return to the area. Joint press releases may be necessary following a mass evacuation where there was no reported damage because of return traffic management issues.  
□ Respond to media inquiries and monitor media.  
□ Distribute press releases.  
□ Coordinate with State agencies and organizations on release of the following types of information:  
  o SCDHEC - Health and environmental bulletins  
  o Red Cross - Closing, consolidation, and opening of public shelters  
  o SCDOT/SCDPS - Status of roads  
  o SCPRT - Tourism industry oriented information, State park openings  
  o SCDOI - Insurance claim information  
  o SCDOE - Status of schools |
| **ESF-16 Emergency Traffic Management** | □ Coordinate with SCEMD/ESF-13 and local emergency management directors/local agencies to facilitate expedited reentry operations.  
□ Manage traffic at critical intersections post-impact with priority given to emergency service vehicles, transportation of supplies/equipment, and access to critical facilities.  
□ Assist public and private organizations with traffic control during restoration of infrastructure services. |
| **ESF-17 Animal/Agriculture Emergency Response** | □ Coordinate available resources to assist with recovery for storm related animal/agricultural issues.  
□ Continue animal/agricultural damage assessment efforts. |
| **ESF-18 Donated Goods and Volunteer Services** | □ Continue donated goods operations as required. |
| **ESF-19 Military Support** | □ Prepare to execute SCNG recovery operations plan. |
| **ESF-24 Business and Industry** | □ Provide liaison with the public sectors business communities to ensure an efficient exchange of plans and information to support recovery operations.  
□ Work with the private sector to assist in focusing efforts and re-establishing commercial operations. |
