

ANNEX 3
Catawba Nuclear Station (CNS)
HEALTH AND MEDICAL SUPPORT

I. INTRODUCTION

- A. Medical and public health support during a Nuclear Power Plant (NPP) radiological incident may require the transportation of radiologically contaminated injured individuals to medical support facilities.
- B. Letters of Agreement (LOA) have been obtained with primary and backup hospitals having the capability to receive and care for most radiological incident cases. Specific LOA for services by designated medical facilities are maintained at the York County Emergency Operations Center and in the Basic Plan, Annex 9 (Letters of Agreement and Memoranda of Understanding).

II. PURPOSE

To identify medical and public health support resources that may be required in the event of an incident at the CNS.

III. CONCEPT OF OPERATIONS

South Carolina Department of Public Health (SCDPH) is charged with coordinating health department planning for radiological incidents at NPPs. With regard to the provision of medical services for contaminated, injured individuals, SCDPH will:

- 1. Coordinate the provision of emergency transportation for victims of radiological incidents.
- 2. Coordinate the provision of emergency medical supplies and health services to the affected areas.
- 3. Coordinate the participation of local primary and backup hospitals or medical facilities that have indicated their willingness and capability to provide emergency medical care to radiologically contaminated, injured individuals.

IV. ORGANIZATION AND ASSIGNMENT OF RESPONSIBILITIES

See SCORERP Basic Plan Annex 5, paragraph IV.
