

ANNEX E TO HURRICANE PLAN
GOVERNOR'S EXECUTIVE ORDERS

EXAMPLE: Governor's Declaration of Emergency

STATE OF SOUTH CAROLINA

EXECUTIVE DEPARTMENT

OFFICE OF THE GOVERNOR

EXECUTIVE ORDER NO. (01)

WHEREAS, the National Hurricane Center has determined from the latest forecast models that Hurricane ____, currently a category ____ hurricane, may impact the State of South Carolina and other areas in the southeastern region of the United States; and

WHEREAS, the undersigned has been advised that Hurricane ____, including the associated wind, heavy rain, storm surge, flash flooding, and other severe weather, represents a significant threat to the State of South Carolina, which requires that the State take timely precautions to protect and preserve property, critical infrastructure, communities, and the general safety and welfare of the people of this State; and

THEREFORE, by virtue of the power and authority vested in me as Governor, pursuant to the Constitution and Statutes of the State of South Carolina, I hereby declare that a State of Emergency exists in South Carolina.

I direct that the South Carolina Emergency Operations Plan be placed into effect. I direct that all prudent preparations be taken at the individual, local, and state levels to protect against the possible effects of Hurricane _____.

I further order that all licensing and registration requirements regarding private security personnel or companies who are contracted with South Carolina security companies in protecting property and restoring essential services in South Carolina be suspended, and SLED shall initiate an emergency registration process for those personnel or companies for a period specified, and in a manner deemed appropriate, by the Chief of SLED.

Further Proclamations and Orders deemed necessary to ensure the fullest possible protection of life and property during this State of Emergency shall be issued verbally by me, and thereafter published for dissemination within the succeeding twenty-four hour period.

This order takes effect at _____ AM/PM, _____, 20__.

Given under my hand and the Great Seal of the
State of South Carolina at Columbia, South
Carolina this _____ day of _____.

Governor

ATTEST:

Secretary of State

EXAMPLE: Governor's Mandatory Evacuation Order For Health Care Facilities**STATE OF SOUTH CAROLINA****EXECUTIVE DEPARTMENT****OFFICE OF THE GOVERNOR**

EXECUTIVE ORDER No. (02)

WHEREAS, the National Hurricane Center has determined that Hurricane

, which is currently a category hurricane, may impact the State of South Carolina and other areas in the southeastern region of the United States; and

WHEREAS, the undersigned has been advised that Hurricane_____, including the associated wind, heavy rain, storm surge, flash flooding, and other severe weather, represents a significant threat to the State of South Carolina, which requires that the State take timely precautions to protect and preserve property, critical infrastructure, communities, and the general safety and welfare of the people of this State; and

WHEREAS, due to the potential impact of Hurricane_____, the undersigned issued Executive Order No. 2023-____ on____, 2023, declaring that a State of Emergency exists throughout the State of South Carolina and activating the South Carolina Emergency Operations Plan; and

WHEREAS, the anticipated impacts of Hurricane_____represent an imminent threat to the safety, security, and welfare of the residents and patients of certain healthcare facilities in the State of South Carolina; and

WHEREAS, as the elected Chief Executive of the State, the undersigned is authorized pursuant to section 25-1-440 of the South Carolina Code of Laws, as amended, to direct and compel the evacuation of all or part of the populace from any stricken or threatened area if such action is considered necessary for the preservation of life or other emergency mitigation, response, or recovery; and

WHEREAS, upon consultation with the South Carolina Emergency Management Division (“EMD”) and the South Carolina Department of Public Health (“DPH”), the undersigned has determined that the evacuation of healthcare facilities in and surrounding the threatened areas is necessary for the preservation of life and that, due to time and logistical concerns, such evacuation should begin prior to any general population evacuation.

NOW, THEREFORE, by virtue of the authority vested in me as the Governor of the State of South Carolina and pursuant to the Constitution and Laws of this State and the powers conferred upon me therein, effective immediately, I hereby order a mandatory medical evacuation of all healthcare facilities licensed by DPH and located in the following Evacuation Zones, which are detailed further in **Exhibit A**:_____. Accordingly, for the foregoing reasons and in accordance with the cited authorities and other applicable law, I further order and direct as follows:

Section 1. Healthcare Facilities (other than General Acute Care Hospitals)

For purposes of this Order, healthcare facilities (other than general acute care hospitals, described below in Section 2) shall include psychiatric hospitals, alcohol and substance abuse hospitals, rehabilitation hospitals, nursing homes, community residential care facilities (also called assisted living facilities), ambulatory surgical facilities, hospice facilities, radiation therapy facilities, abortion facilities, day care facilities for adults, residential treatment facilities for children and adolescents, intermediate care facilities for persons with intellectual disability, facilities for chemically addicted or dependent persons, and birthing centers.

Upon the effective date and time of this Order, all healthcare facilities in the above-referenced Evacuation Zones are hereby ordered to:

- Initiate evacuation procedures;
- Stop admission of any non-emergent patients;
- Immediately begin to reduce their census of patients;
- Limit services to emergent or essential patient needs (for example, non-elective procedures, dialysis, giving birth, medications, and chemotherapy); and
- Take other measures as necessary to ensure evacuation is completed pursuant to this Order prior to the arrival of tropical storm force winds.

It is important to begin evacuating healthcare facilities in advance of the approaching storm and prior to any general population evacuation to ensure the safety of patients and staff. Each healthcare facility is unique with different needs and should begin implementing its plan now. Recognizing that fully evacuating takes time and the needs of each healthcare facility are different, each healthcare facility must notify DPH upon completion of its evacuation so that the State has a census of healthcare facilities. Such notification to DPH may be made by email at [*email address to be added*] or by telephone at [*telephone number to be added*].

Section 2. General Acute Care Hospitals

For purposes of this Order, general acute care hospitals means hospitals licensed by DPH as general hospitals as defined by Regulation 61-16, whose licenses include general hospital beds.

A. Exempted General Acute Care Hospitals

Based on the forecasted wind speed at the time of issuance of this Order, as well as information previously submitted to DPH, the following licensed general hospitals are exempt from mandatory medical evacuation:

[Hospital Name (Hospital License No.)]

[The determination of which hospitals will be exempted from mandatory evacuation in the Order will be based on the forecast information available at the time of the Order from the National Hurricane Center regarding wind speed (hurricane category); information on file with DPH for individual hospitals regarding the wind speed the facility can safely withstand; and information on file with DPH confirming height of the facility's essential components. The hospital must also have a shelter-in-place plan on file with DPH addressing the key components required by DPH.]

Exempted hospitals must notify the Department of their decision to either evacuate or to shelter-in-place. Such notification to DPH should be made by email at *[email address to be added]* or by telephone at *[telephone number to be added]*. Exempted hospitals that activate their shelter-in-place plan must still reduce census, cancel elective procedures, and maintain communication with the Department throughout the event. Exempted hospitals must also maintain current information in the Critical Data Sheet, provide facility-wide bed availability data through PalmettoEOC and the evacuation survey tool, and maintain proper notification protocols internally and externally. Exempted hospitals must shutter at the time of EMS stoppage and must notify the public they will be shuttered during this time, but may render aid, to the degree safely possible, to first responders or local residents who come to the hospitals in extremis.

B. Non-Exempted/Evacuating General Acute Care Hospitals

General Acute Care Hospitals in the Evacuation Zones identified in this Order that are not listed above as exempt must evacuate. General Acute Care Hospitals that otherwise evacuate may, if they choose, shelter medically fragile patients in place in accordance with Section 3 of this Order, and/or may shelter staff on site so they can re-open emergency services immediately following the storm but before evacuation is lifted. Such hospitals must comply with the following requirements:

- Notify DPH of their plans to shelter in place medically fragile patients and/or staff;
- Notify DPH immediately of any change in plans to shelter in place medically fragile patients and/or staff;
- Inform DPH of the number of patients and number of other persons who will shelter-in-place;
- Have a written plan on file with DPH that provides for the safety of the patient(s), staff, and those remaining with the patient(s);
- Have a written plan that ensures there is sufficient food, water, medications, and equipment and other logistical support internal to the hospital to maintain every person within the hospital for ninety-six (96) hours post impact of the hurricane;
- Coordinate storm-related emergency services with local EMS providers to ensure the hospital's emergency services are available when needed by EMS and other first responders;
- Have a written plan on file with DPH addressing the provision of urgent and emergent services as soon as the storm has subsided and it is safe for EMS to operate;
- Notify the public the facility will be closed from the time EMS in the hospital's area ceases to operate until the storm has subsided and it is safe for EMS to operate; and
- Shutter the hospital during the period that EMS is not operating. During the period they are shuttered, hospitals should render aid, to the degree safely possible, to first responders or local residents who come to the hospitals in extremis.

Notifications to DPH required by this Section should be made by email at *[email address to be added]* or by telephone at *[telephone number to be added]*.

Section 3. Shelter-in-Place for Medically Fragile Patients in Hospitals

Under limited circumstances, a physician may determine that it is medically advisable for a medically fragile patient to shelter-in-place in a hospital that has otherwise evacuated. In such cases, hospital management and the physician shall weigh the risks of sheltering in place to care for the patient as compared to the risks of evacuating the patient. In this scenario, such

facility must:

- Obtain a written certification from a physician that the patient is too medically fragile to be evacuated (that is, the risk to the patient's health or life by moving him/her is greater than the risk of remaining in the hospital during this emergency);
- Make reasonable efforts to consult with the patient or his/her legal representative prior to making a final determination to shelter a medically fragile patient in place. In circumstances where a consultation is not possible, the hospital shall document in the patient's medical record details of the efforts made to attempt a consultation;
- Inform DPH of the number of patients and number of other persons who will shelter-in-place;
- Have a written plan on file with DPH that provides for the safety of the patient(s), staff, and those remaining with the patient(s) during the sheltering-in-place; and
- Have a written plan to ensure there is sufficient food, water, medication, equipment, and other logistical support internal to the facility for ninety-six (96) hours post impact of the hurricane.

Section 4. Re-Entry

After a county or a portion thereof is evacuated, decisions regarding re-entry into the county, or a portion thereof, will be made at a local level based on local conditions, by local officials in coordination with county emergency management authorities. The county emergency management authority is appropriate for coordination in re-entry decisions as they will have intimate knowledge of the local conditions, such as road conditions and risks to patients' lives and safety.

When a hospital re-establishes emergency services, including those services necessary to support emergency services, within a part of the hospital after the hurricane has subsided but before the expiration of this Order, or after the expiration of this Order but before a county is allowing re-entry, the hospital must conduct an inspection of the facility to determine if that section can function safely and meet regulatory requirements. The inspection must be certified by the facility manager and the chief executive officer or their designees. Other affected

healthcare facilities should make arrangements for similar inspections prior to re-entry and repatriation.

This Order is effective immediately. Further proclamations, orders, and directives deemed necessary to ensure the fullest possible protection of life and property during this State of Emergency shall be issued verbally by the undersigned and thereafter reduced to writing and published for dissemination within the succeeding 24-hour period.

Governor

ATTEST:

Secretary of State

EXAMPLE: Governor's Declaration Calling The National Guard to State Active Duty**STATE OF SOUTH CAROLINA****EXECUTIVE DEPARTMENT****OFFICE OF THE GOVERNOR**

EXECUTIVE ORDER NO. (03)

WHEREAS, the National Hurricane Center has determined that the coastline of the State of South Carolina is presently vulnerable to the effects of a strengthening hurricane that continues to develop in the Atlantic Ocean; and

WHEREAS, I have been advised that Hurricane _____ represents a threat to the safety, security, welfare and property of citizens and transients living in South Carolina.

THEREFORE, by virtue of the power and authority vested in me as Governor, I hereby place specified units and/or personnel of the South Carolina National Guard on State Active Duty pursuant to my authority under Section 25-1-1840 of the South Carolina code of Laws, and I will do so by directing the Adjutant General to issue supplemental orders. I further order the utilization of the South Carolina National Guard's personnel with appropriate equipment, at the discretion of the Adjutant General and in coordination with the Director of the South Carolina Emergency Management Division, to take necessary and prudent actions to assist the citizens of this state.

Further proclamations and regulations deemed necessary to ensure the fullest protection of life and property during this State of Emergency shall be issued orally by me and thereafter reduced to writing within the succeeding twenty-four hour period.

This order takes effect at _____ AM/PM, _____, 20__.

State of South Carolina at Columbia, South
Carolina this _____ day of _____.

Governor

ATTEST:

Secretary of State

EXAMPLE: Evacuation Order

STATE OF SOUTH CAROLINA

EXECUTIVE DEPARTMENT

OFFICE OF THE GOVERNOR

EXECUTIVE ORDER No. (04)

WHEREAS, the National Hurricane Center advises that Hurricane _____ will impact the coast of South Carolina; and

WHEREAS, Hurricane _____ represents an imminent threat to the safety, security and welfare of the residents and visitors of South Carolina; and

WHEREAS, I am authorized pursuant to Section 25-1-440 of the Code of Laws of South Carolina, 1976, as amended, as the Elected Chief Executive of the State to direct and compel evacuation of all or part of the populace from any stricken or threatened area if this action is deemed necessary for the preservation of life or other disaster mitigation, response, or recovery; and

WHEREAS, a state of emergency has been declared in South Carolina and the South Carolina Emergency Operations Plan was placed into effect in order to provide for the health, safety and welfare of residents and visitors located in the threatened areas where the effect of Hurricane _____ could be experienced; and

WHEREAS, I have determined that evacuation is necessary for the preservation of life in and surrounding the threatened area.

NOW, THEREFORE, by virtue of the power and authority vested in me as Governor pursuant to the Constitution and Laws of South Carolina, effective ____ AM/PM____ (insert date), I do hereby order an evacuation of all persons located in the specified Evacuation Zones in _____ and _____ counties with the exception of those critical or emergency response personnel, as designated by the appropriate municipal, county or Special Purpose District officials, necessary to provide for essential services during or immediately following the event. All other persons are ordered to evacuate the areas as expeditiously as possible. Specific details of the areas for the evacuation are attached.

Any persons or non-Emergency Management personnel who remain in the evacuation zones, and any medical facilities, nursing home facilities, businesses and/or other organizations who allow persons under their charge to remain in the evacuation zones, thereby become responsible for their own safety and well-being and for the safety and well-being of those under their charge. They are charged with the knowledge that should they need the assistance of emergency personnel or services, those personnel or services may not be available or capable of coming to their aid.

Persons in inland counties near the projected path of Hurricane _____ should take all precautions to ensure their protection from potential high winds and inland flooding.

Further Proclamations and Orders deemed necessary to ensure the fullest possible protection of life and property during this State of Emergency shall be issued verbally by me, and thereafter published for dissemination within the succeeding twenty-four hour period.

Specific details of the areas for the evacuation are attached.
