

ANNEX 3
Oconee Nuclear Station (ONS)
HEALTH AND MEDICAL SUPPORT

I. INTRODUCTION

- A. Health and medical support during a Nuclear Power Plant (NPP) radiological incident may require the transportation of radiologically contaminated, injured individuals to medical support facilities.
- B. Letters of Agreement (LOAs) have been obtained with local, primary and backup hospitals with the capability to receive and care for most radiological incident cases. Specific LOA for services by designated medical facilities are contained in the Pickens and Oconee County Emergency Operations Plans (EOPs) and presented in the South Carolina Operational Radiological Emergency Response Plan (SCORERP) Base Plan, Annex 9 (Memoranda of Understanding and Letters of Agreement).

II. PURPOSE

To identify medical and public health support resources that may be required in the event of an incident at the ONS.

III. CONCEPT OF OPERATIONS

South Carolina Department of Public Health (SCDPH) is charged with coordinating health department planning for radiological incidents at NPPs. With regard to the provision of medical services for contaminated, injured individuals, SCDPH will:

- 1. Coordinate the provision of emergency transportation for victims of radiological incidents.
- 2. Coordinate the provision of emergency medical supplies and health services to the affected areas.
- 3. Coordinate the participation of local primary and backup hospitals or medical facilities that have indicated their willingness and capability to provide emergency medical care to radiologically contaminated, injured individuals.

IV. ORGANIZATION AND ASSIGNMENT OF RESPONSIBILITIES

See SCORERP, Base Plan, Annex 5 (Health and Medical Support), section IV.
